

Home Firearm Safety

Date: May 5, 2012

Time: 09:00

Location: Cascade Shooting Facilities (CSF) Clubhouse (www.cascadeshootingfacilities.org)
27036 SE Ravensdale Way, Ravensdale

Cost: There are two options available:
Free – No materials provided
\$15.00 – NRA student packet and certification (see Registration below)

Registration:

Walk-ins welcome. Registration is only required to receive the student packet (and certificate). The packet cost of \$15.00 must be received by April 14th to cover materials and shipping charges. To register (with or without packet), please send an email to Steve Powell at beprepared2010@gmail.com.

Overview:

The NRA Home Firearm Safety training is the basic course recommended to anyone unfamiliar with guns, needs to learn gun terminology, or learn handling basic firearm types.

Course Goal:

To teach basic knowledge and skills, and to explain the attitude necessary for the safe handling and storage of guns in the home.

NRA Home Firearm Safety Course Lesson Plan:

In the four hour course students will learn rules of safe gun handling, identifying and unloading various firearms, ammunition, cleaning and storage, and will get hands-on experience with the most common types of handguns, rifles, and shotguns. A representation of each type of common firearm will be provided.

Please note: No live ammunition is allowed in the classroom during this course.

Lessons:

1. The Elements of Gun Safety
2. Identifying and Unloading Different Firearms
3. Types of Ammunition
4. Cleaning and Storage of Firearms
5. Practical Exercise in Safe Gun Handling

Prerequisites:

There are no prerequisites for taking this course. Anyone under 16 must have an adult with them to handle firearms.

Walk-ins are welcome. If you are planning on attending (without receiving a certificate) it would be nice know so the classroom can be configured appropriately or if you have any questions, please email Steve Powell at beprepared2010@gmail.com
